**Re: Notification of Ex Parte Conversation, Discussing Decision Prohibiting Incentive Programs, CG Docket No. 03-123; CC Docket No. 98-67**

Dear Ms. Dortch:

Yesterday, Larry Fenster from MCI had a telephone conversation with Tom Chandler, Division Chief of the Telecommunications Relay Office, in the Consumer and Governmental Affairs Bureau regarding the effective date by which relay providers must begin billing for traditional relay service. MCI explained that due to the legacy nature of the billing system serving its relay centers, a substantial period of time would be needed before it would be able to comply with the expected clarification that relay providers would no longer be permitted to offer free interstate long distance service as part of a traditional relay call.

If you have any questions, please contact me at the number listed above.

Sincerely,

/s/Larry Fenster

Larry Fenster
